

Guide to your 2025-26 Financial Aid Offer

Undergraduate Students

Welcome to the Caltech Office of Financial Aid

Caltech Financial Aid is dedicated to providing access to educational opportunities in support of student success, by offering need-based aid in alignment with the principles of vertical and horizontal equity, while attending to the distinctive needs and resource disparities of our students.

UNDERSTANDING YOUR FINANCIAL AID OFFER

The California Institute of Technology is pleased to provide you with your Financial Aid Offer for the 2025-26 academic year.

All students who are offered financial aid for study at Caltech should keep this financial aid offer guide handy for ready reference. Additional information about Caltech's financial aid program is available on the [Caltech Financial Aid website](#). This offer guide, along with the website, explains what to expect, what is required, and the rights and responsibilities of all students who receive financial assistance.

Caltech is grateful for the generous support of private donors, state and federal financial aid programs, and past aid recipients who have repaid their student loans. In addition, Caltech alumni have generously supported student education and programs through annual gifts to the Alumni Fund. Regulations and/or restrictions established by particular donors, organizations, and agencies ensure that each type of financial aid is offered only to students who are eligible for and will make proper use of the funds. By accepting such support, both the Institute and the recipient incur responsibilities.

Please review your financial aid offer and this guide carefully; then follow the steps listed in the checklist on page 16. Please do not hesitate to contact us if you have questions or concerns about your financial aid. We will be happy to assist you. You should also feel free to [schedule an appointment](#) if that is convenient for you.

The amount of aid that students receive varies based on their—and when applicable, their parents'—particular circumstances. The difference between the estimated cost of attendance at Caltech and a student or family's expected contribution is referred to as the student's financial need.

Caltech is committed to meeting the full need of each student by providing a financial aid package consisting of scholarships, grants, student employment and/or loans. We make every effort to maintain the general components of a student's financial aid package during the student's enrollment at Caltech. However, Institute policies and funding levels change over time, so **the general components of a student's financial aid package are guaranteed for four years only.**

There are two basic categories of financial aid that may be listed in your Financial Aid Offer:

Grants and Scholarships represent “gift aid,” which does not need to be repaid. In general, a Caltech Scholarship is awarded based on financial need. Caltech named and/or endowed scholarships are considered to be based on need and merit. If you qualify for a state or federal grant, this grant should be listed on your Financial Aid Offer.

Self Help Options include both work-study awards and loans. Work-study awards represent student employment funds that have been allocated for you to earn. Loans represent money that you can borrow and pay off over time. Since both work-study awards and loans are located under “Self-Help Options” on your award letter, you will need to know how to tell them apart. Any loan that you are offered will have the word “Loan” in the name of the award; any work-study award you are offered will have “Work-Study” in the name of the award. If you are unsure whether an award you have been offered is a loan or a work-study award, please contact us.

Work-study may be earned during the academic year. Funds are available under the Federal Work-Study and Caltech Work-Study programs. While a work-study award is not a guarantee of employment, Caltech has historically had more opportunities for student employment than we have had students interested in working.

Loans generally only include Caltech/Institute Loans. Students may be awarded Federal Direct Loans upon request.

Self-help amounts are subject to change year-to-year based on student eligibility and availability of funding.

Please refer to the [eligibility requirements](#) for additional information about specific awards listed on your aid offer.

Accepting Your Financial Aid

To accept your financial aid, go to the [access.caltech](#) portal and then to **My Financial Aid**, where you will find each of your financial aid awards available to accept or decline. You will not be able to log on to [access.caltech](#) without an IMSS username and password. These credentials will be issued to matriculating students in early summer.

Please note that:

- You must actively accept or decline all your awards.
- If there are changes in your enrollment status or housing status that affect your cost of attendance or you receive outside scholarships, your Financial Aid Offer will be revised accordingly.
- If you are offered a loan, you may choose to accept an amount less than what is offered.

Determination of Family Contribution and Financial Need

The Family Contribution is the result of federal and institutional need analysis formulae that are applied to the income and asset information reported on your Free Application for Federal Student Aid (FAFSA), and aid application materials. We also use the College Scholarship Service (CSS) Financial Aid Profile form for prospective domestic students. For international students, we use the CSS Financial Aid Profile. The need analysis formulae assume that the parents and the student are responsible for contributing to the student's estimated cost of attendance at Caltech to the extent that they are able.

The Family Contribution listed on your offer is our estimate of your family's ability to contribute towards your cost of attendance. The need analysis should result in comparable contributions for families like yours and in proportional contributions from families whose financial circumstances are "stronger" or "weaker" than yours. The following factors are considered when calculating a family's expected contribution:

- Income
- Net Assets (not including the value of your family's primary residence)
- Household information, including:
 - Size of the family
 - Ages of all family members

The parental contribution is not a calculation of how much cash your family has on hand or a judgment of how much your parents should be able to contribute from their current income. It is also not intended to be a measure of their liquidity. Instead, the contribution represents our best estimate of your parents' capacity, over time, to absorb the cost of your education. The need analysis formula calculates how much your parents can be expected to contribute but does not make any assumptions about how your parents will finance their portion of the expected contribution. Your parents have choices about how to do that, e.g. making payments over time, borrowing, utilizing savings, investments, and current earnings.

The student contribution represents the amount that you are expected to contribute toward your cost of attendance.

The Family Contribution reflected on the Financial Aid Offer includes the calculated student and parental contributions.

If you were required to have one of your parents submit the CSS Profile for Noncustodial Parent or submit the Caltech Noncustodial Parent Statement, we reviewed that information and calculated an expected parent contribution for that parent. That expected noncustodial contribution has been combined with your custodial parent's contribution on the Financial Aid Offer.

These expected contributions are used to determine your eligibility for need-based Caltech-administered scholarships, grants, student employment and need-based loans.

Your financial aid offer is based on the assumption that you will be enrolled full-time (at least 36 units per quarter) for the academic year, i.e. fall, winter, and spring. You must

be enrolled in at least this number of units to receive the types and amounts of financial aid enumerated in your award. Changing the amount of units you are taking might affect your financial aid. For more information, please refer to the [Caltech Financial Aid website](#)

Your financial aid offer for the 2025-26 academic year is based on your class level, enrollment status, federal and state aid program regulations, as well as Caltech financial aid policies and funding limitations. Award amounts are subject to change based on changes in any of these factors. We have estimated your cost of attendance, e.g. tuition, fees, and living expenses for the 2025-26 academic year. Your estimated cost of attendance is indicated in the top section of your financial aid offer. For US Citizens and eligible non-citizens who reside in the US, associated US territories, Canada, or Mexico, we've included a travel allowance designed to (partially) offset the cost of two roundtrips from your home during the 2025-26 academic year.

Please note that the estimated living expenses portion of your Cost of Attendance will be determined according to your housing plans selection on the Caltech Supplemental Aid Application. If you need to make changes to your housing selection, you must do so before the start of fall classes.

Students who opt to enroll in one or more of the Caltech Health, Dental and/or Vision Insurance plans can have that expense added to their cost of attendance and they will be offered grant assistance to cover the increased cost of attendance. The Financial Aid Office will only make this adjustment if a formal request is made.

Please submit the Financial Aid Request for Caltech Student Insurance form to request an adjustment. The form can be found on the **My Financial Aid** page on [access.caltech](https://access.caltech.edu); it will become available in August, and must be submitted by Add Day for consideration.

Please note that students who have declined the loan that was included in their financial aid offer will NOT be considered for grant assistance to cover their participation in the Caltech Health Insurance plan.

Outside Scholarships, Outside Resources, Tuition Benefits and Reimbursements

Caltech's policy is to use outside scholarships/outside resources, including tuition benefits or reimbursements, to replace the self-help component of your financial aid package. Self-help includes work-study awards, and student loans. Outside scholarships/resources will generally replace the self-help portion of your award in the following order:

1. Federal or Caltech Work-Study
2. Caltech Loan

If the total amount of outside scholarships exceeds the self-help component of your financial aid package, your Caltech Scholarship will be reduced in the amount of the surplus. In general, a student's total financial aid, including outside assistance, cannot exceed their demonstrated financial need. **Under no circumstances can a student's total financial aid exceed their estimated cost of attendance.**

If you are receiving outside financial resources for the academic year, you need to contact the Financial Aid Office via email at finaid@caltech.edu. Use "Outside Scholarships" as the subject line and indicate the name(s)/source(s) of the assistance and the amount(s) of the award(s) in the body of the e-mail.

Outside scholarships are usually disbursed in the form of a check and must be handled according to the sponsor's specifications. If the funds are sent to the Financial Aid Office or the Bursar's Office, they will be credited to your account. Once credited to your account, the total amount of the scholarship is typically disbursed equally over the three academic terms. If the crediting of any outside scholarship results in a credit balance on your account, you may request that the credit balance be refunded.

The full amount of any outside scholarships/resources received will be allocated to your financial aid for the academic year in which it was received. Caltech Financial Aid cannot process outside scholarships/resources across multiple academic years.

Arrangements for multi-year scholarships/resources must be made with the awarding organization.

You may specify special instructions for outside resources via the [Outside Scholarship Special Instructions Request Form](#).

Please note that all students who receive financial aid are required to notify the Financial Aid Office in writing (with photocopies of applicable documentation) of any external financial resources. These include outside scholarships, untaxed benefits, employer tuition benefits or reimbursements, and other sources of funding available to you during the 2025-26 academic year. **Unreported resources could result in the cancellation of financial aid that you have been awarded and/or required repayment of financial aid that has been disbursed.**

CALTECH SCHOLARSHIPS

Need-Based Caltech Scholarships

Caltech Scholarships are awarded to students with demonstrated financial need. Recipients are expected to be enrolled full-time.

One or more named or endowed scholarships may be used to replace a portion of a student's Caltech Scholarship. Named and endowed scholarships are also need-based, but many have a merit component. Recipients of named and/or endowed scholarships are often selected after their initial Financial Aid Offer based on scholarship-specific eligibility. These scholarships are almost always used to replace some or all of the recipient's Caltech Scholarship. **The Financial Aid Office makes every attempt to renew these scholarships if the recipient continues to meet the specific eligibility criteria.**

FEDERAL GRANTS

Federal Pell Grant

Pell Grants are awarded to exceptionally needy undergraduate students who are seeking their first bachelor's degree. Amounts are set by the federal government based on need and enrollment status. Provisionally, awards in 2025-26 will range from \$740 to \$7,395. Recipients must be in good academic standing.

Federal Supplemental Educational Opportunity Grant

Federal Supplemental Educational Opportunity Grants (FSEOG) are awarded to undergraduates with demonstrated need who are seeking their first bachelor's degree. Full-time Pell Grant recipients are given priority when the Financial Aid Office awards FSEOG. Recipients must be in good academic standing. Awards cannot exceed \$4,000 per year.

STATE GRANTS

Students who are awarded a Cal Grant after receiving their initial Financial Aid Offer should anticipate a revised Financial Aid Offer with reduced Caltech scholarship assistance.

Cal Grant A

Provides tuition and fee assistance to undergraduate California residents seeking their first bachelor's degree. Cal Grant A is awarded on the basis of cumulative grade point average and financial need. Qualifying students can currently receive up to \$9,358, renewable for up to four years. Continuing Cal Grant recipients must maintain good academic standing, demonstrate financial need and meet the Cal Grant income and asset criteria. They are not required to resubmit verification of their grade point averages for renewal.

Cal Grant B

Provides a living-allowance stipend and tuition/fee assistance to undergraduate California residents seeking their first bachelor's degree. Cal Grant B is awarded on the basis of cumulative grade point average to students with exceptional financial need. Recipients are generally from disadvantaged economic or educational backgrounds. Awards for first-year students provide up to \$1,648 for books and living expenses. When renewed or applied beyond the first year, awards also include tuition and fee assistance of up to \$9,358. Continuing Cal Grant recipients must maintain good academic standing, demonstrate financial need and meet the Cal Grant income and asset criteria. Recipients are not required to resubmit verification of their grade point averages for renewal.

Other State Grants

Other states such as Pennsylvania, Vermont, and Rhode Island may offer grant assistance to their residents who plan to attend Caltech. Students are encouraged to contact their respective state postsecondary agencies for specific eligibility and renewal criteria.

EDUCATIONAL LOAN PROGRAMS

An educational loan is a serious financial obligation and must be repaid. You should carefully consider the repayment obligation before you accept educational loans. Declining a loan will not prevent you from borrowing later in the term or beyond.

Educational loans can be used to finance a college education. Students can postpone paying a portion of their educational costs until they complete their education or leave school. The repayment period on most loans can extend up to 10 years after graduation or leaving school.

The average educational indebtedness for Caltech students who graduated in June 2024 (among undergraduates who borrowed) was \$16,168. This number is significantly lower than the national average for students attending four-year private and public colleges.

Caltech Loans

Students are automatically considered for a Caltech Loan as a part of their need-based financial aid application. If you are awarded a Caltech Loan, you will have the opportunity to decline it prior to disbursement. Generally, no interest is charged, and no repayment of principal is required while a student maintains a continuous course of study at Caltech. Repayment on Caltech and Institute Loans begins 9 to 12 months after the student graduates, leaves school or drops below half-time enrollment.

You can find additional information about Caltech Loans [here](#).

Federal Direct Loans

The U.S. Department of Education offers eligible students and/or parents the opportunity to borrow Direct Loans, to help pay the cost of attendance of Caltech.

The Institute will use the loan(s) to pay your tuition, fees and other direct charges such as food and housing. Any money that is left over after all direct charges have been paid will be given to the student to cover indirect costs.

Students and/or parents will make their repayments to a loan servicing company that collects the debt on behalf of the federal government.

The Direct Loan programs available to undergraduate students are the Federal Direct Student Loan Program and the Federal Direct Parent PLUS Loan Program.

Federal Direct Student Loans

There are two types of Federal Direct Stafford Loans: subsidized and unsubsidized. The federal government pays the interest on subsidized loans while the borrower is enrolled at least half-time and during authorized periods of deferment.

The interest on unsubsidized loans begins to accrue immediately upon disbursement and is generally capitalized (added to the amount borrowed) when the borrower is no longer enrolled at least half-time.

Students pay an origination fee (a percentage of the principal amount) for each Stafford Loan received to offset the government's cost of administering the program.

Eligibility for subsidized Stafford Loans is based on financial need as demonstrated via the FAFSA. Students who do not demonstrate sufficient need or whose need is met may borrow unsubsidized Stafford Loans provided their total financial aid, including the Stafford Loan, does not exceed the total estimated cost of attendance.

You can find additional information about Federal Direct Student Loans, including eligibility, application instructions, interest rates, origination fees, borrowing limits, and repayment [here](#).

Federal Direct Parent PLUS Loan

Federal Direct Parent PLUS Loans are available to the parents or stepparents of dependent undergraduate students. These credit-based loans are not based on financial need or subsidized by the government. Students must file a FAFSA in order for their parents to qualify for a Parent PLUS Loan.

You can find additional information about Federal Direct PLUS Loans, including eligibility, application instructions, interest rates, origination fees, borrowing limits, and repayment [here](#).

Federal Student Aid Ombudsman

The Federal Student Aid Ombudsman Group works with student loan borrowers to informally resolve federal loan disputes and problems. Detailed information about resolving complaints and requesting assistance with the Ombudsman Group can be found on the [Federal Student Aid website](#).

STUDENT EMPLOYMENT

Student employment programs provide the opportunity to earn money to help meet a student's Caltech expenses, as well as a chance to connect with the Institute and the opportunity to gain valuable job experience that might be helpful in the competitive post-college job market.

Student employment opportunities are generally available to all Caltech students, even those who did not apply for financial aid or did not qualify for need-based aid. Caltech

students should contact [Career Achievement, Leadership, and Exploration \(CALE\)](#) for assistance in finding part-time employment either on- or off-campus.

Compensation rates will vary based on the position, a student's job skills and previous work experience.

Students with federal work-study may also seek employment at the Caltech Y, which offers flexible tutoring positions with an hourly pay rate of \$30-\$35. Information about the Caltech Y's student employment opportunities can be found [here](#).

Federal Work-Study

Federal Work-Study funds are awarded to domestic students with exceptional financial need.

For additional information about student employment at Caltech, please go to our [work-study page](#).

Caltech Work-Study

The Caltech Work-Study Program is funded by the Institute and is designed to provide part-time employment for international students. The Caltech Work-Study program is limited to on-campus employment. The program's regulations parallel the Federal Work-Study Program's regulations.

FINANCIAL AID DISBURSEMENT

Most financial aid funds are credited directly to your student account and are applied first to institutional charges for the current term. Funds are generally credited on the first day of classes (but never earlier than 10 days prior to the first day of the term).

Aid that can be credited directly to your account will be credited when you have:

- accepted/declined your awards in **My Financial Aid**;
- provided all required documents for the aid programs you have been awarded;
- are in good academic standing (see [Satisfactory Academic Progress](#)) enrolled in at least the minimum number of units for the financial aid programs you have been awarded;
- completed all necessary loan documents and, for first-time Direct Stafford loan borrowers, completed the online Entrance Interview and Master Promissory Note.

If the amount of aid disbursed is greater than the total institutional charges for the term, you may receive the excess financial aid (credit balance) as a refund. Only the account holder may request a refund. Refund requests are made to the [Bursar's Office](#).

Any Pell Grant recipient with a "presumed" Federal Student Aid (FSA) credit balance based on awarded or anticipated aid in a given term may contact the Bursar's Office to request a refund of the lesser of the presumed credit balance or the amount allocated in

the student's expense budget for books and supplies 10 days before the beginning of the payment period for that term for the purpose of purchasing books and/or supplies.

If the student does not contact the Bursar's Office to request an early refund, they will have opted out of this refund option and will be subject to the Institute's standard refund policy available to all students. (For almost all Caltech students this will not be applicable as the total FSA awards will not exceed the amount of allowable charges to result in a credit balance.)

Federal regulations allow Caltech to credit financial aid funds to your account for payment of tuition, fees, food, and housing charges. The Bursar's Office must be given written authorization to keep a credit balance on your account from one term to the next term during the academic year. Federal guidelines prohibit keeping a credit balance from one academic year to the next. If you complete your financial aid file late in the term, resulting in the late disbursement of your financial aid funds, you may be subject to late fees assessed by the Bursar's Office.

Cal Grant B stipend payments will be credited to your tuition account. If the crediting of any financial aid results in a credit balance on your account, you may request that the credit balance be refunded to you.

In general, loans are disbursed in three installments, one at the beginning of each term. For most Caltech students who are enrolled for the full academic year, this means that one-third of their loan(s) will be disbursed at the beginning of the fall term, another at the beginning of the winter term and the final third at the beginning of the spring term. Students whose loan periods are for a single term receive their entire disbursement at the beginning of that term.

If you earn work-study wages (Federal Work-Study or the Caltech Work-Study), you will be paid through the bi-weekly Caltech payroll system. Funds are deposited in your checking account through direct deposit.

Since financial aid is generally awarded on the assumption of full-time enrollment, it is possible that some or all of your aid will need to be adjusted if you enroll less than full-time. If you withdraw or drop below half-time enrollment as of the last day for adding classes for a term, you may be required to repay all or a portion of the aid that has already been credited to your account. You must inform the Financial Aid Office if you take a leave of absence or change your enrollment subsequent to receiving your financial aid. Cal Grant recipients who take a leave of absence are advised to notify the [California Student Aid Commission](#) and submit the Grant Record Change Form to maintain their eligibility for the program.

You have the right to cancel your loan(s) any time before disbursement and up to 14 days after disbursement.

Budget carefully. You will most likely receive all of your financial aid at the beginning of each term. It is your responsibility to manage your finances so that your financial aid will help you cover your expenses for the entire term.

SATISFACTORY ACADEMIC PROGRESS

Federal and state regulations governing student financial aid programs require the Institute to ensure that each student who is receiving financial aid maintains Satisfactory Academic Progress (SAP) toward their degree.

The SAP check occurs annually after grades are posted at the end of the academic year. Failure to meet the standards of satisfactory academic progress may disqualify a student from enrollment at the Institute and/or additional federal, state, and institutional financial aid. A student who successfully appeals their ineligibility for registration will be placed on probation or continued on probation status for financial aid purposes.

Academic Requirements

All undergraduates are required to meet certain scholastic standards as outlined in the [Catalog](#).

Financial Aid Probation

Students who are found not to be making satisfactory academic progress at the end of the academic year will be ineligible to register. For the first such ineligibility, the reinstatement petition may be acted on by the dean or associate dean of undergraduate students, after consultation with the student and examination of the record. At the dean's discretion, such cases may be referred to the UASH Committee for action. If given permission to register, students will be on academic and financial aid probation. A student may continue to receive financial aid while on financial aid probation. Students should use this opportunity to re-establish SAP.

Students who fail to make satisfactory academic progress at the end of the academic year will be ineligible to register and ineligible for financial aid. Students may appeal this status as outlined in the [Academic Requirements](#).

Continued on Financial Aid Probation

Students who fail to make satisfactory academic progress while on financial aid probation for one academic year but are reinstated as a result of a UASH petition, will be continued on financial aid probation and be ineligible for federal and state aid. A student may be continued on financial aid probation for one academic year.

Financial Aid Suspension

Students who fail to make satisfactory academic progress after being continued on financial aid probation for one academic year and are again reinstated by the UASH Committee will be ineligible for federal, state, and institutional financial aid at Caltech until such time as they make satisfactory academic progress. Students may appeal this status as outlined [here](#).

Maximum Time Frame for Receiving Aid

A student has a limited time frame to complete all degree requirements and remain eligible for financial aid. As defined by federal regulations, the maximum time frame is 150 percent of the published program length for degree completion.

To qualify for a Bachelor of Science degree, students must complete a minimum of 486 units which translates to $486 \times 150\% = 729$ maximum attempted units.

An “attempted” unit is defined as any unit that a student remains enrolled in AFTER the Add Period, including units the student withdraws from each term. Units that a student is retroactively enrolled in after the Add Period are considered attempted units.

LESS THAN FULL-TIME ENROLLMENT (UNDERLOADS)

Any student who wishes to carry fewer than 36 units in any given term must petition for an underload. Underloads must be approved by the Deans. Underloads for graduating seniors must be approved by the Registrar.

Undergraduate students who underload in a term will have their financial aid, including outside scholarships, adjusted based on the actual number of units students are enrolled in as of Add Day. However, students will be charged full-time tuition. The full Underload Policy can be found on the [Caltech Financial Aid Website](#).

All students planning to carry an underload should contact the Financial Aid Office prior to taking less than a full-time course load.

REFUND AND REPAYMENT POLICY

Should a student, for any reason, withdraw from Caltech during an academic term, a refund of tuition as well as food and housing, if applicable, is calculated. The refund amount is determined by how much of the term has elapsed. If the student is a recipient of student financial assistance, that assistance will be reduced as a result of their withdrawal. The refund amount for recipients of federal Title IV student assistance is calculated in accordance with regulations issued by the U.S. Department of Education. It is the purpose of this section to inform students of the financial implications of withdrawal.

Undergraduate students who underload in a term will be charged full-time tuition (unless granted an exception by the Dean of Students), and their financial aid, including outside scholarships, will be adjusted as indicated on the [Financial Aid website](#) based on the actual number of units the student is enrolled in as of Add Day. Undergraduate students will be charged for a minimum of 12 terms of full-time tuition, even if they complete their degree requirements early. Students may *not* receive scholarship assistance for any term in which they are not enrolled at least half-time.

If the student is not a recipient of federal student financial aid, the Institute's refund policy returns any refund of tuition or food and housing first to the programs from which assistance has been received. Any amount remaining will then be returned to the student. The non-Title IV portion will be distributed as appropriate, first to outside agencies, as required, then to the Caltech scholarship or loan, depending on the composition of the aid package. These distributions will occur as credit(s) to the appropriate aid funds and charge(s) to the student's Caltech account.

PLEASE NOTE: The last day for completing and submitting a financial aid application for any given academic year is one day after the beginning of the registration period for the following year's Fall Term.

For students who will be completing their degree requirements prior to the Spring Term or, for any reason, leaving the Institute prior to the Spring Term, the last day for submitting and completing a financial aid application is one day after the beginning of the registration period for the term following their last term of enrollment.

Last Term of Enrollment in Academic Year 2025-26	Hard Deadline
Fall Term	November 21, 2025
Winter Term	February 27, 2026
Spring Term	May 22, 2026

As a general rule, a continuing student must be enrolled (or planning to enroll) at the time their aid application is processed, and they are offered aid.

If the student is the recipient of federal Title IV student assistance, any refund must then be applied first to the federal aid program(s) in the prescribed order listed in the [Caltech Catalog](#). In the event that a student's disbursed financial aid exceeds the direct costs on the student's account, a credit balance will result. Withdrawal will result in the reversal or repayment of the credit balance and adjustment(s) to the student's Caltech account.

CHECKLIST

- ☐ Read your Financial Aid Offer carefully.
- ☐ Check for accuracy in your name and, if applicable, your Caltech UID number. Contact the Financial Aid Office if there are any discrepancies.
- ☐ Send us a copy of your announcement from the California Student Aid Commission (CSAC) if you have been awarded a Cal Grant but it is not listed on your Financial Aid Offer.
- ☐ Go to **My Financial Aid** in the [access.caltech](#) portal to accept/decline your awards. (Note: You will not be able to log on to [access.caltech](#) without an IMSS username and password. These credentials will be issued to matriculating students in early summer.)

You should accept your awards in **My Financial Aid** as soon as possible, even if you are requesting a reevaluation of your financial aid application.

- ☐ Contact the Financial Aid Office via email at finaid@caltech.edu if you are receiving outside scholarship assistance. Put "Outside Scholarships" in the Subject line and

indicate the name(s)/source(s) of the assistance and the amount(s) of the award(s) in the body of the e-mail.

☐ Retain a copy of this Financial Aid Offer Guide for your records.

APPEALING YOUR FINANCIAL AID OFFER

You may file only **one** petition for reevaluation. Once a decision has been made on your request, additional petitions for the same request will not be considered.

Allowances Against Income

Students who have unexpected expenses may submit a [Request for Reevaluation of Financial Aid](#). Reasons for requesting a reevaluation may include, but are not limited to:

- Significant reduction of income
- Out-of-pocket costs for medical/dental expenses not covered by insurance
- Mandatory home repair expenses not covered by insurance
- Expenses incurred related to natural disasters

We are willing to consider these unexpected expenses as an allowance against your parent's total income if they can provide documentation of the expense(s) along with the Request for Reevaluation (i.e. receipts, bills, canceled checks, estimates from a service provider).

Financial aid petitions are processed on a first-come, first-served basis. The earliest you can expect to hear about the action(s) taken is, generally, two weeks after submission. The Financial Aid Office will notify you of the decision via email.

Filing a petition does not guarantee your request will be granted. Exceptional circumstances must be documented and must meet federal and/or institutional petition policies. Additional aid can only be awarded if funds are available.

Request to Use Parents' 2024 Income

In some cases, the prior year parental income (2024) will be significantly lower than the prior, prior year income reported on the FAFSA and/or CSS Profile (2023).

In order for us to consider using prior year income, your parents will need to:

- Complete and sign the [Parent Income Update Form](#)
- Submit a signed copy of their 2024 federal income tax return (with all schedules)
- Submit their 2024 W-2s, if applicable.

All documents with personally identifiable information (PII) should be submitted through the [Caltech Financial Aid Dropbox](#). **Do NOT** submit these documents via email, as it is not secure.

Allowable Budget Additions

Allowable budget additions can be used to supplement a student's estimated cost of education in order to increase loan eligibility. In general, the total budget additions cannot under any circumstances exceed 60 percent of a student's standard budget. The allowable expenses are applicable to periods of enrollment only. Complete documentation must be received by the Financial Aid Office before these costs can be added.

Transportation: Transportation costs to and from school, which exceed the standard transportation allowance. (Note: neither the cost of a vehicle itself nor any major repairs or insurance are applicable.)

Health and Wellness Expenses: Out-of-pocket expenses, not covered by insurance, can be added to the budget with adequate documentation.

Additional Costs for Students with Disabilities: Students with disabilities can have select additional expenses added to their standard budgets.

Computer: Students can include computer and peripheral costs, up to a maximum of \$2,500, either in a single request for the maximum amount, or incrementally over their time as undergraduates until reaching the maximum limit. These costs can be covered by outside scholarships or (additional) loans. Students with exceptional need may request grant funding through the [Computer Purchase Subsidy Request Form](#).

Disallowable Budget Items

The following items cannot be allowed in a student budget:

- legal fees;
- consumer debt (i.e., credit card payments);
- pet expenses;
- vehicle purchase and vehicle repair;
- student living expenses during a period when you are not enrolled.

POLICY OF NONDISCRIMINATION

Caltech is committed to equal opportunity for all persons without regard to sex, race, color, religion, national origin, citizenship, ancestry, age, marital status, physical or mental disability, medical condition (cancer-related or genetic characteristics), genetic information, pregnancy or perceived pregnancy, gender, gender identity or expression, sexual orientation, status as disabled veteran, or other eligible veteran status or any other characteristic or condition protected by state and federal laws. It is the policy of Caltech to provide a work and academic environment free of discrimination as required by federal and state law, including Title IX which prohibits discrimination based on sex in Caltech's educational programs and activities. Discrimination is an act or communication that interferes with an individual's or a group's ability to participate fully in the Caltech community on the basis of any protected condition or characteristic. Consistent with this policy and federal and state law, sex discrimination, including sexual harassment and sexual violence will not be tolerated at Caltech. Caltech will take all reasonable steps to eliminate discrimination in the academic environment.

Please refer to Caltech's Title IX Office website for additional information about [Title IX at Caltech](#). Inquiries concerning the application of Title IX may be referred to equity@caltech.edu.

We're here to help.

If you have any questions and/or concerns about your financial aid, please contact us. We are available via telephone, email, or scheduled appointment.

1 TOTAL COST OF ATTENDANCE

The estimated nine-month, full-time cost to attend Caltech. This is made of of two types of costs:

Direct costs: Costs which will appear on your Caltech bill (tuition, fees, housing and meals).

Indirect Costs: Estimated costs associated with attending Caltech that will not appear on the bill (books, supplies, transportation, personal expenses).

2 SCHOLARSHIPS & GRANTS

This section lists aid you're eligible to receive at Caltech, which you do not have to repay.

3 NET PRICE

The difference between your Cost of Attendance and your grants and scholarships. Self-help options may be accepted to help offset your net price.

4 WORK-STUDY

A program that allows students to earn money for their college expenses through work. Only the highest-need students are offered work-study.

5 CALTECH LOAN

A loan offered by Caltech to help cover your educational costs, and which must be repaid after graduation.

6 FAMILY RESOURCES

A determination of your family's ability to contribute to your education expenses on a yearly basis, based on the financial and household information provided in your financial aid application.

7 DEMONSTRATED NEED

A calculation of the Cost of Attendance minus your Family Resources. Caltech meets 100% of your demonstrated financial need through a combination of financial aid awards.
